Our firm started as a small family business 30 years ago. By today we work for satisfied and regular customers all over Hungary and Europe.

The goal of Ertl Wood Industry Ltd and ER-FA 2000 Wood Industry Ltd, both of which constitute the ERTL Corporate Group, is to provide its customers with high-quality, value-for-money services at all times, in a reliable and timely manner being supported by a high level of expertise.

Our aim and plan is to manufacture the furniture our customers dream about. The history of our Corporate Group reaches back to the 1990s, when Ferenc Ertl started his private business as a carpenter. In 1995 he purchased a part of the site we occupy currently then he established ER-FA 2000 Wood Industry Company in 1996, the scope of activities of which included trade in furniture materials and accessories, also manufacturing custom furniture.

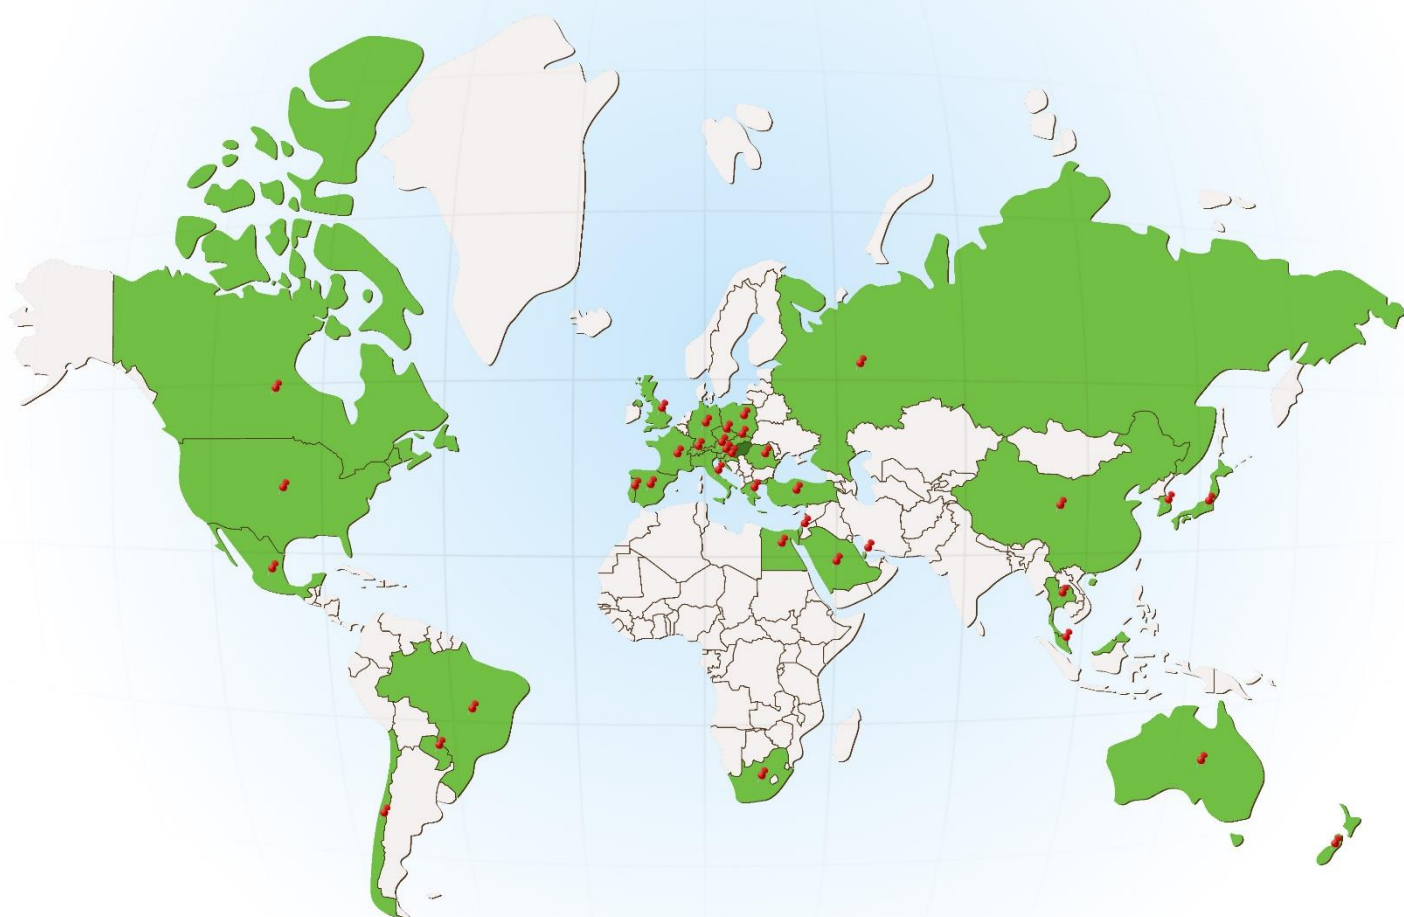

In 1996 we launched our shop in Székesfehérvár. After that one of the most important milestones in the life of our group of firms followed in 2001, when the commercial and the manufacturing parts separated and ERTL Wood Industry Ltd was established. Through separating the two main activities we were able to optimize material purchase and commercial tasks and thus production became more economic and cost effective.

Every condition is provided in our production plant to manufacture furniture that live up to today's expectations. Our capacity allows us to undertake large projects as well, and the professional background is provided for the implementation of individual products. Quality plays a major role in our company mission, for which reason quality control is looked upon as a key task. This way we have been able to become a serious supplier for several international networks.

Today 180 employees, 4 500 square meters of manufacturing plant, 6 000 square meters of warehouse for basic material and finished goods and 2 000 square meters of retail shop and office ensure perfect working conditions. The sales revenue of our corporate group was close to 30 million euros in 2023.
